Special Offer to Miners, Ranchers and Others.

We have on hand from last year, two or three hundred thousand feet of COMMON BARKS, assorted lengths and widths, sound and dry. We want to close it out, and in order to do so, have decided to offer it, just as it stands, at Ten Dollars a Thousand, delivered on cars here; Spot Cash. Our yard is getting overcrowded; we want room, and have determined to make this sacrifice to get it.

Remember, this is not refuse or cull lumber. It is GOOD, COMMON LUMBER, and just the thing for Barns, Shedding, Sheathing, Fences, &c. There is no reason why fine-blooded stock should be compelled to endure the storms of winter, or the scorching heats of summer, when material for a comfortable shelter can be procured at this rate. For temporary (or permanent) housing works, sorting platforms, light lagging, &c., this lumber is just the thing you've been wanting. Something that would do, and wasn't too high-priced. Come and look it over if you can; you won't regret it.

This offer is to remain OPEN SIXTY DAYS or until the Colorado River Bridge is finished. After that qui en sabe. We could not undertake to replace this lumber at anything like the figures named; so go for it if you want it. You'll not get such another chance till the next Centennial. We will sell the same lumber by the team load at TWELVE DOLLARS a thousand, in less than car-load lots. For lots of a car-load or over, and we don't care how you haul it, TEN DOLLARS GOES.

This isn't all the Lumber we have. Not by a jug-full. Not by millions of feet. We have it of all grades and at all prices, this year's cut PLUMP THICKNESS, and BRIGHT as the smile of your best girl. (Prices above).

Our MINING TIMBER would do you good to see. You have a dead sure thing on selling your claim if your main shaft or incline is well timbered with our best—and all paid for. No cave has ever occurred in a mine where our timbers were used.

Orders addressed to JNO. A. LEE & Co., Albuquerque, N. M.; W. J. CHAMBERLAIN, Kingman, Arizona; H. HUTTON, Los Angeles or to us here will receive prompt and careful attention.

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances."

"It is a scientific fact that the Royal Baking Powder is absolutely pure."

"H. A. MOTT, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious substance."

"HENRY MORTON, Ph.D., President of Stevens Institute of Technology."

"I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome."

"S. DANA HAYES, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country. No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

Note—The above DIAGRAM illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair-minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.
